SKIDATA Middle East LLC

Innovative Access control solutions and more....

Philipp Heindl, Executive Director

"Everything begins
with an idea."

Becoming SKIDATA – the POS for ski resorts

1977   1983   1987   1989   1999   2007   2014   2016

With the pioneering development of the first cash register and printed tickets SKIDATA revolutionizes the ski industry: for the first time, user data can be generated and fraud prevented. The path to a successful future is launched.
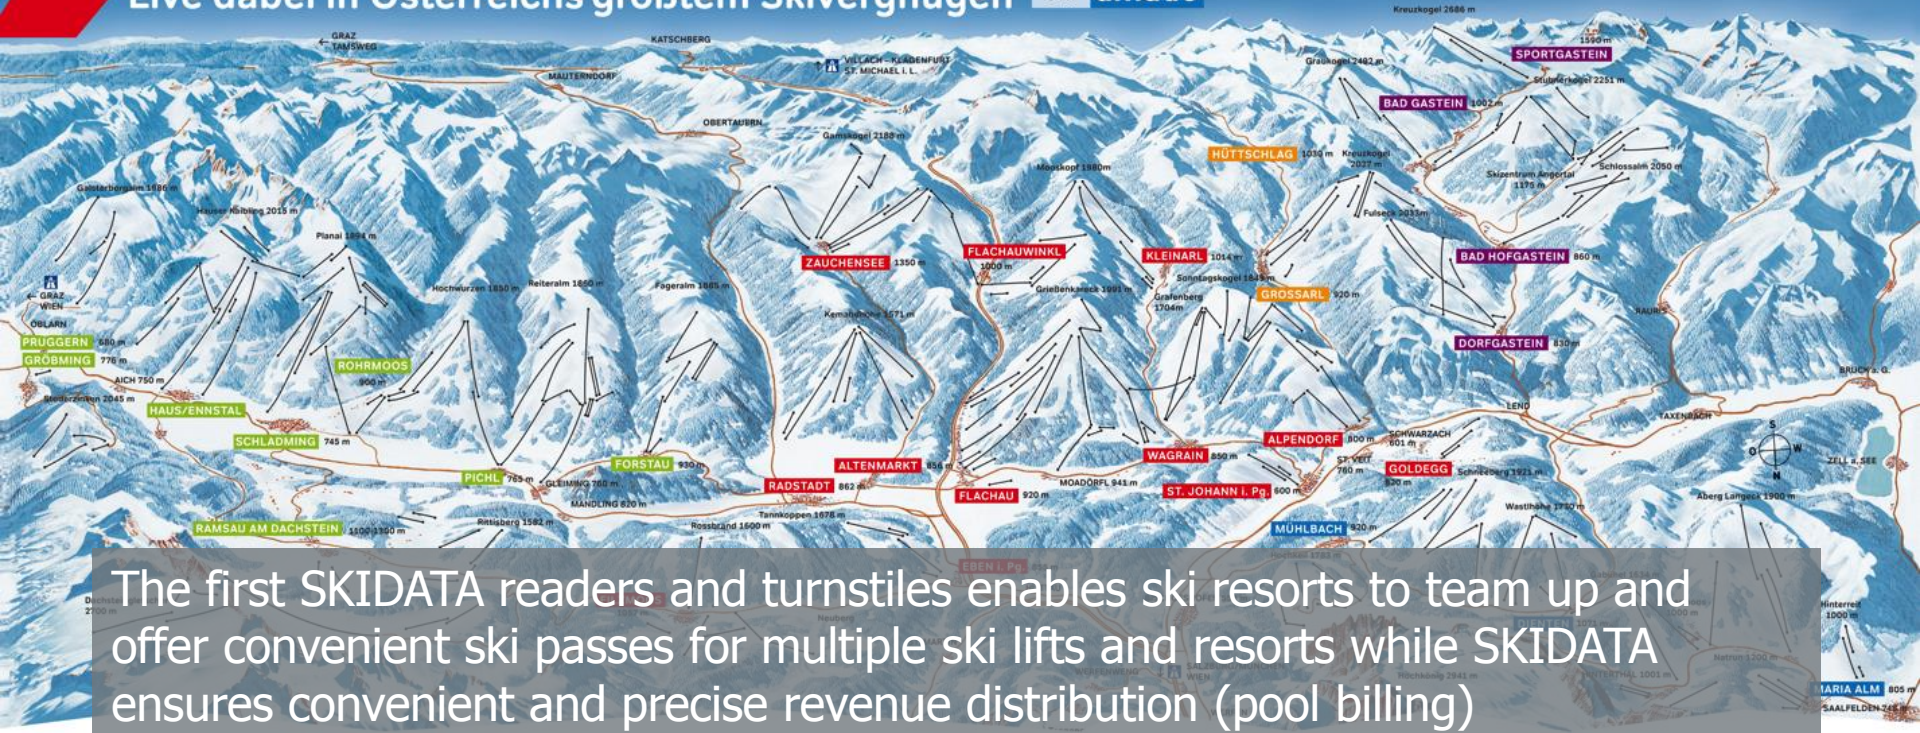

Ski resorts offer joint ski passes

5 REGIONEN, 25 ORTE, 760 KM PISTEN & 270 LIFTE MIT NUR EINEM TICKET
Live dabei in Österreichs größtem Skivergnügen   Ski amadé

The first SKIDATA readers and turnstiles enables ski resorts to team up and offer convenient ski passes for multiple ski lifts and resorts while SKIDATA ensures convenient and precise revenue distribution (pool billing)

RFID Technology Conquers the Ski Market

1977 1983 **1987** 1989 1999 2007 2014 2016

SKIDATA markets the first touch-free ski ticket based on RFID technology. Passing a gate on skis no longer requires stopping and taking tickets out

Credit cards as parking ticket
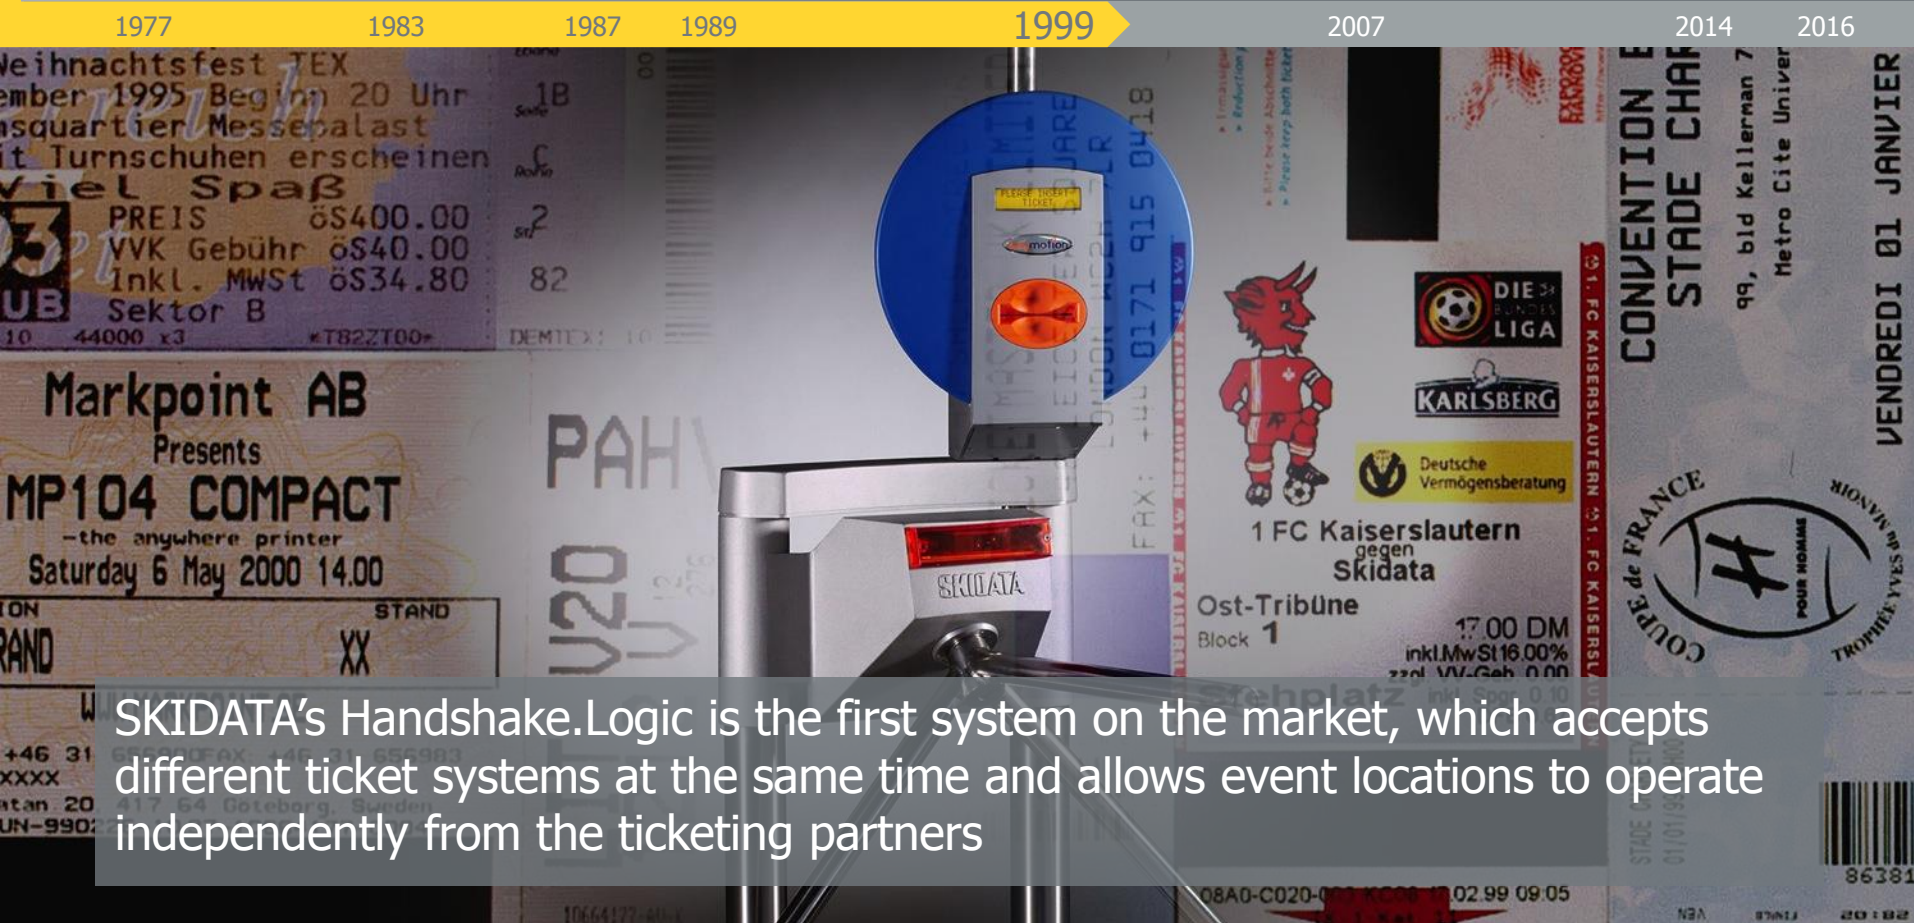

1977 1983 1987 **1989** 1999 2014 2016

Credit card entry and payment at parking columns revolutionizes the parking industry – today "parking" makes 70% of the SKIDATA turnover worldwide

Allowing the use of multiple ticketing systems

SKIDATA's Handshake.Logic is the first system on the market, which accepts different ticket systems at the same time and allows event locations to operate independently from the ticketing partners

SKIDATA – Your Partner to Access Success
