## CORPORATE RESTRUCTURING LEGAL CHALLENGES AND THEIR IMPACT ON MOTIVATION AND PERFORMANCE OF EMPLOYEES

Time: 8.30 am - 11.30 am

Venue: Instagram Room (level 42), Media One Hotel

Corporate restructuring can appear in many facades (merger & acquisitions, restructuring of business models, etc.). From a legal point of view, corporate, tax and licensing related issues need to be taken into consideration. Corporate restructuring impacts employee's behaviour heavily and affects existing culture of the company, hence often resulting in challenges meeting business objectives. This is why corporate culture changes should be addressed effectively and on time in order to mitigate any friction within the transformation process. This Joint Business Council Breakfast Seminar will shed light into the major legal aspects of corporate restructuring and effective people management. Join us for an interactive roundtable discussion on effective strategies and best practices.
