

# MULTI-NATION BUSINESS CONTINUITY TASK FORCE

A Business to Government Discussion Platform

# MULTI-NATION BUSINESS CONTINUITY TASK FORCE

First, we want to acknowledge everyone that has been involved in the development and progress of the Task Force, and to those that are leading particular policy groups or sector-specific groups designing workshops and policy recommendations. There are 31 business councils and groups representing 6500 companies engaged.

We value the energy, time and effort that each of you are investing.

Also, we would like to thank APCO Worldwide for their support as they continue to hear your voice and craft the messages and aggregate policy recommendations as we build a stronger relationship between the Task Force and the UAE Government.

Finally, the reason that all of us have engaged is because of the support from Dubai Chamber and also Abu Dhabi Chamber of Commerce. These organizations have embraced this work and their support is critical to the success.

## Update on the MNBC Task Force Website:

The MNBC Task Force continues to grow as we currently have the involvement and support of 31 business councils that represent 6500 businesses in the UAE. Many, but not all, verticals have held meetings and we have been successful in making initial recommendations in some areas. The website will serve as the primary resource for members who are engaged, and we will share details of how to log in to the site in a separate communication.

**WELCOME TO [BCTASKFORCE.COM](https://www.bctaskforce.com)**

As a reminder, all participants must sign and return the NDA documents to confirm participation in the MNBC Task Force. If we haven't received an NDA, it is likely that your suggested participant is not being included in the communications for their sector.
