

Call for Participation

ENERGY GLOBE
THE WORLD AWARD FOR SUSTAINABILITY

SUBMIT YOUR SUSTAINABLE PROJECT!

The **Energy Globe Award** is presented annually to outstanding and sustainable projects in the area of environment and energy. Awards are presented on the **national** level and on the **international** level for the 5 categories of Earth, Fire, Water, Air and Youth. With more than 180 participating countries, the Energy Globe Award is today's **most renowned worldwide environmental award**. The international recipients of each category are presented with their awards as part of a ceremony that is broadcast all over the world. They will receive a total of **10,000 euro cash as prize money** and are featured by international media.

Projects focusing on the conservation of resources, the improvement of air and water quality, the efficient use of energy, the implementation of renewable energies as well as creating a heightened awareness for these issues can be entered.

Have you been involved in the implementation of an interesting project?

We cordially invite you to submit specific projects from these areas for the Energy Globe Award. Please find all relevant information concerning the Energy Globe Awards and how to enter your project on the following webpage: www.energyglobe.info.

Are you familiar with anyone who has implemented such a project?

If so, please forward this email to the person(s) concerned and encourage them to participate.

Deadline for project submission: 9 December 2020

Our environment is everyone's concern – every single contribution to an environment worth living in and creating a sustainable future counts!
